RAHUL SHARMA

Tech Lead Engineer

PROFESSIONAL SUMMARY

Seasoned Technical Lead with 9+ years of experience in designing, developing, and scaling distributed systems and cloud-native applications. Adept at technical leadership, system architecture, and leading cross-functional teams to deliver high-impact software products. Expertise in .NET Core, Microservices, Kubernetes, GCP, and Azure. Proven success in mentoring engineers, driving system performance, and aligning technical strategy with business goals.

TECH STACK

.NET 6 | .NET 8 | ASP.NET Core | LINQ | JavaScript | jQuery | MVC | xUnit | Microservices Architecture | RESTful API Design | Azure Storage Tables | Stored Procedures | SQL Server | PostgreSQL | MongoDB | Redis | Google Cloud Platform (GCP) | Microsoft Azure | Google Pub/Sub | Docker | Kubernetes | CI/CD Pipelines | YAML | Elastic APM | Scrum | Git | Agile | Architecture Reviews

WORK HISTORY

Technical Lead Engineer, 01/2022 to Current
Puresoftware - Gurugram

- Architected and led the development of high-availability automotive backend systems to support 50M+ leads.
- Spearheaded migration to microservices and containerized deployments on GCP, increasing reliability and reducing downtime.
- Implemented scalable, customer-centric incentive engines improving OEM budget efficiency.
- Mentored a team of 6+ engineers, led sprint planning, and improved delivery velocity by 30%.
- Integrated Elastic APM and monitoring for end-to-end observability and incident response.
- Led architecture reviews, system audits, and cloud cost optimization initiatives.

Senior Software Engineer, 08/2019 to 01/2022
Bold Technology - Noida

- Re-architected resume-builder applications used across Zety, MyPerfectResume, and LiveCareer.
- Developed scalable APIs using .NET Core and Azure Storage for mobile and web clients.
- Increased paid user conversion by 500% through payment gateway integration and system optimization.

PERSONAL DETAILS

Address: New Delhi, India 110058
Phone: +91 9654933384

SKILLS

- Implementing .Net solutions
- Application software development
- API design and implementation
- Microservices design
- React development
- Software unit testing
- Resource optimization strategies
- Redis database management
- Cross-Functional Collaboration
- Mentoring & Team Building
- Scalability & Performance Optimization
- Docker & Kubernetes
- CI/CD Automation
- Cloud-Native Development (GCP, Azure)
- System & Solution Design

- Led code reviews, mentored junior engineers, and introduced unit testing practices using xUnit.

Software Developer, 09/2018 to 07/2019
Tek Travels pvt ltd - New Delhi

- Modularized and optimized B2B travel booking application.
- Automated business reporting with SQL jobs and backend services for travel agents.
- Updated old code bases to modern development standards, improving functionality.

Backend Developer, 08/2017 to 08/2018
Avighna Softwares - New Delhi

- Developed web and mobile solutions for diverse clients across multiple domains in a startup environment.
- Designed and implemented backend and database for various web applications from scratch using ASP.NET Web APIs, SQL Server, and GitHub.

Technology Associate, 04/2016 to 07/2017
Publicis Sapient - New Delhi

- Worked with Swaps, Futures, Options, and CTRM/ETRM tools like RightAngle and Allegro.
- Customized solutions for clients (OLAM, UNIPER) to align with specific business requirements.
- Developed PNL and MTM reports based on functional requirements.
- Optimized code to enhance system performance and efficiency.

EDUCATION

Bachelor of Engineering and Technology, Electronics and Communication Engineering, 06/2011 to 05/2015
GGSIPU - New Delhi, India
